

### **EGN/ GGN VIKOS AOS Geopark, Greece, EGN WEEK 2015**

The Geopark week of the year 2015 is going to be dedicated to the promotion of the Thematic Routes of the Vikos- Aaos Geopark, implemented in 2014. This has been decided after the high pressure of the local communities and especially the people who involve in tourism activities in the area, e.g. ecotourism and recreational activities.

All the field visits to the Thematic Routes will be open to the public and the expert scientists (Archaeologist, Architect, Geologist, Botanist etc) who were involved in the implementation of the routes together with the Vikos Aaos Geopark representatives and staff members (Biologist, Geologist. Archaeologist) will be there to present the specific features of each route to the public.

The program – which might be slightly changed (the days or the subjects) depending on weather or other unpredictable factors- will be as follows:

**Friday, 5 June 2015:** Opening and relative presentations at the Vikos Aaos Geopark Information Centre in Papigo

**Saturday 6 June 2015:** Presentation on the field of the Vikos- Aaos Geopark's Thematic Route regarding the prehistory (Route I)

**Sunday 7 June 2015:** Presentation on the field of the Vikos- Aaos Geopark's Thematic Route regarding the flora (Route II)

**Monday 8 June 2015:** Presentation on the field of the Vikos- Aaos Geopark's Thematic Route regarding the geology (Route III)

**Tuesday 9 June 2015:** Presentation on the field of the Vikos- Aaos Geopark's Thematic Route regarding the architecture (Route IV).

### **VIKOS AOS GEOPRAK**

**Haritakis Papaioannou/ Panayotis Paschos/ Georgia Kitsaki**
