2016 is a special year for the SOBRARBE-PIRINEOS GEOPARK because we celebrate 10 years as a geopark and as a member of the European and Global Geoparks Network. We invite you to join us in the meetings and activities promoted in the framework of the Week of Activities of the European Geoparks Network 2016, organized simultaneously in 69 European territories that in November 2015 were declared UNESCO World Geoparks.
