

European Geoparks Week 2008  
Report

Name of Geopark: **LUBERON**

Dates of geoparks week: **14 may to 8 june ....**

Contact person: [christine.balme@parcduluberon.fr](mailto:christine.balme@parcduluberon.fr) ;  
[stephane.legal@parcduluberon.fr](mailto:stephane.legal@parcduluberon.fr)

.....

Special motto of geoparks week: **Le Luberon fête la géologie..**

1. Please give the following information:

- number of activities/events held in geoparks week 6.....
- number of press releases announcing geoparks week events 6.....
- number of printed copies for program flyer/brochure/posters : 500 self-printed
- total number of visitors/participants persons about 300

2. Describe the Geoparks Week 2008:

- Three geological guided tours about the peculiar landscapes of Forcalquier (les Mourres), the Regalon canyon and about the geological resources of the Manosque anticline (coal, gypsum, sulfur...).
- Conference : "le tour de France d'un géologue : étape en Luberon". François Michel, author of the eponyme book talked about the France rocks and landscapes from granites to limestone, clays to sandstones. About 50 persons came to the "trip" in Forcalquier.
- Exhibition : "La France sauvage : photos des réserves naturelles de France" at the Maison du Parc in Apt. A photos exhibition showing a wide diversity of ecosystems across the French Nature Reserves.
