Novohrad - Nógrád Geopark Novohrad Tourist Information Centre

The Novohrad Tourist Information Center is located in the Municipality of Fi akovo, on the southern part of Middle Slovakia. The town is situated on the northern part of Geopark Novohrad-Nógrád and is the one of it's centers. It lies 95 km southeast from Banská Bystrica county seat, and also 17 km north from town Salgótarján, exactly on the north-western border of Protected Landscape Area Cerová vrchovina.

Interior of the Info center

Novohrad Tourist Information Center - seat of Info center, Novohrad-Nógrád Geopark office, Castle Museum Fi akovo, Educational center and the Palóc Gallery

Fi akovo castle

The building of Novohrad Tourist Information Center was built in 2008 thanks to the financial contribution of an Interreg III A program, in the historical center of the town directly under the Fi akovo castle. The office staff provides extensive information from the joint area of geopark, as well as about the International Networks of Geoparks (EGN and GGN). That includes information about natural monuments, geological fields and monuments, protected areas, tourist pathways, cycling routes and educational trails, about institutions, tourist services and cultural events within the geopark area.

In the Info center promotional materials, maps, postcards and products of local craftsmen are available.

Directly nearby the Info center towers the Fi akovo Castle Hill, where the cultural, historical, geological and natural monuments are visitable by educational trail.

The Info center is open all year round from Monday to Friday.
